

Curriculum Vitae
HUYNH PHUOC MAN

Education:

- 2014-2018 University of Missouri, Ph.D. Plant, Insect and Microbial Sciences, 2018.
2008-2010 Can Tho University (VN), M.Sc. Plant Protection, 2010.
2003-2008 Can Tho University (VN), B.S. Agronomy, 2008.

Experience:

- 2011-present Faculty, Department of Plant Protection, Can Tho University.
2018-present Postdoctoral Research Associate, Division of Plant Science & Technology, University of Missouri.
2008-2010 Researcher, Department of Plant Protection, Can Tho University.

Professional Service:

- 2020-present Peer reviewer of manuscripts from different journals including Agriculture, Agronomy, Applied Sciences, Biological Control, BMC Genomics, Crop Protection, Genes, Insects, Toxics.
2020-2022 Guest Editor for Insects.

Research Interests:

Insect nutrition, metabolomics, transcriptomics, toxicology, artificial diet development, corn rootworm resistance management.

Grants:

- Improving the formulation of an artificial diet for rearing *Philornis downsi*. Charles Darwin Foundation/ International Atomic Energy Agency (IAEA). Role: Co-PI, 2022-2023. \$22,000.
Screening toxins for efficacy against Bt resistant and susceptible western corn rootworm larvae on diet overlay toxicity assays. Syngenta Crop Protection Inc. Role: Co-PI, 2022-2023. \$64,000.
Study on rearing conditions and effect of insecticides on development of larval parasitoid *Microplitis manilae*, a parasitoid of common cutworm. Can Tho University. Role: PI, 2013. \$2,500.
Isolation, identification and effectiveness of asarone on root of *Acorus* sp. to control some insect species and *Phytophthora* sp. Can Tho University. Role: Co-PI, 2012, \$3,000.

Awards and Recognitions:

- 2018-2022 Postdoctoral Fellowship, University of Missouri.
2019-2020 Postdoctoral Research Award Winner, University of Missouri.
2017-2018 Douglas D. Randall Young Scientists Development Fund, University of Missouri.
2017 Puttler-Hostetter Grant in Entomology, University of Missouri.
2016 Adams-Meiner Doctoral Scholarship Award, University of Missouri.

2016-2018 Ph.D. Fellowship, University of Missouri.
2014-2016 Ph.D. Fellowship Award, Vietnam's Ministry of Education and Training.

Refereed Publications:

- Huynh, M. P.**, B. E. Hibbard, K. -V. Ho, and K. S. Shelby. 2022. Toxicometabolomic profiling of resistant and susceptible western corn rootworm larvae feeding on Bt maize seedlings. *Scientific Reports*. 12(1):1-13 (<https://www.nature.com/articles/s41598-022-15895-z>).
- Jabeur, R., V. Guyon, S. Toth, A. E. Pereira, **M. P. Huynh**, *et al.* 2022. A novel binary pesticidal protein from *Chryseobacterium arthrosphaerae* controls western corn rootworm by a different mode of action to existing commercial pesticidal proteins. *PLoS ONE* (in press).
- Huynh, M. P.**, C. Nielson, B. W. French, D. C. Ludwick, R. W. Geisert, A. E. Pereira, J. Barry, L. N. Meihls, S. K. Schneider, B. E. Hibbard. 2021. Development of a non-diapausing strain of northern corn rootworm with rearing techniques for both diapausing and non-diapausing strains. *Scientific Reports*. 11(1): 1-11 (<https://www.nature.com/articles/s41598-021-97452-8>).
